Summary:

- I have around 2+ years of work experience in developing web applications using **Angular JS** as a frontend **Web Designing** framework. With Updated knowledge on **Angular2.**
- Knowledge in UI Development Technologies by developing **Single Page Applications**(SPA) Using**Angular2,AngularJS, JavaScript, JQuery, HTML5, CSS3, JSON, AJAX**etc.
- Strong communication, collaboration & team building skills with proficiency at grasping new technical concepts & utilize the same in a productive manner.
- Have good knowledge on consuming **RESTAPI's**.
- Having good working knowledge on **Angular Framework**, concepts like **Dependency Injection, Routing, Directives, Filters, Services and Two-Way Data binding.**
- Co-ordinate with the team's back-end developers on the process of consuming a **Custom Directives**
  and **nested JSON iteration**.
- Basic knowledge in **Node Js**
- Knowledge on **Express Js.**
- Working Knowledge on **Angular 2.**
- Knowledge of **version control system such as GIT**.
- Hands on experience and knowledge in **Single Page Application Development** using **Angular.**
- Hands on experience with tools such as **Visual Studio, Webstorm, Plunker, Notepad++.**
- Involved in Interact ion with client and Gather requirements

Technical Skill Set:

Web Technologies	JavaScript,HTML5, & CSS3
Databases	MySQL ,MongoDB , SQLServer , Oracle
Frameworks	Angular4/2/1.6x, Bootstrap
Development Tools	Webstorm ,Visual Studio Code , Punker , Notepad++
Server	NodeJs, ExpressJs
Library	JQuery

Academic Information:

- **B.E** in Electrical and Power Engineering in RTMNU in 2015

- **Intermediate** from Mathuradas Mohota college of science,Nagpur in 2011.

- **SSC** from Rajendra High School,Nagpur in 2009

Work Experience:

Software Engineer (Dec 2015 – Till Date)

UIT System Pvt Ltd, Madhapur, Hyderabad.
http://www.uitsystems.com

Planning & Co-ordination:

- Involved in high/low level design.
- Handling testing, system integration, troubleshooting of the production issues.
- Co-coordinating for smooth implementation of the project. Extending post-implementation support.
- Ensuring delivery of tasks keeping in mind the time, quality and functionality.
- Great ability to write clear, maintainable, well-documented, well-commented and efficient code for web development.
- Understanding of Responsive Web Design and complete Software Product Development Life Cycle. Experience in using various IDE's, Dreamweaver, Notepad++, Visual Studio Code.

Professional Work Experience:

Software Engineer
- Developing web application using JavaScript framework such as Angular
- Developing reusable library function for the application
- Customization of third party applications as required
- Integrating code optimization techniques effectively
- Developing single page applications using Angular
- Interact with client and Gather requirements
- Writing Rest side code Front end page
- Participating in many Database Design and project planning sessions

PROJECT 1:

Client	Property Advisor-**PROPLADDER**
Role	HTML Developer & JAVASCRIPT Developer
URL	https://www.propladder.com/
Project Description	Client required an independent real estate advisor with a PAN-INDIA presence. Led by a group of dynamic & visionary investors, Propladder aims to utilize its vast knowledge of the real estate sector to help those looking to buy property in INDIA. The software would then allow the customer to purchase real estate property very easily.
Responsibilities	Involved in front end implementation of Finance Module using HTML5 JAVASCRIPT CSS3 BOOTSTRAP JQuery AJAX
Scope of work	Developing Single Page App using JQuery

PROJECT 2

Client	E-commerce Platform -**FLIPKart**
Role	UI Developer (angularJS)
Project Description	Client required a software system to automate liquidation of its warehouse stocks. External Liquidation Platform is meant to handle creation of artifact lots from the warehouse, which would then be opened for bidding for various vendor

Responsibilities

- Involved in front end implementation of Finance Modules using Angular JS
- Understanding the PRD documents and implementing the same
- Implemented **Custom Filters** to sort lot tables.
- Created **Custom Directives** used for different Modal.

- Involved in Routing
- Developing Single page App using AngularJS
- Handling of JSON data for Dynamic Data Display
- Code Optimization
- Implement to HTML elements, CSS properties, JAVA SCRIPT.
- Used Fluid CSS layouts, to make the page adopt smoothly as the browser
- Supported to all major browser's:-IE8+, Mozilla, Safari, Chrome ,Opera.
- Rich look and Feel HTML Mock-ups and Created Slider effects and
- Login Pop Up Message Using JavaScript and angularjs
- Solving Browser compatibility issues in all browsers

Scope of work	Developing Single Page App of E-commerce website using Angular2

PROJECT 3	
Client	E-commerce Platform -**FLIPkart**
Role	
	UI Developer (angular2)
Project Description	Client required a software system to automate liquidation of its warehouse stocks. External Liquidation Platform is meant to handle creation of artifact lots from the warehouse, which would then be opened for bidding for various vendor

Responsibilities

- Involved in front end implementation of Login and Home page Modules using Angular 2
- Understanding the PRD documents and implementing the same
- Implemented **Custom Filters** to sort lot tables.
- Created **Custom Directives** used for different Modal.
- Involved in Routing
- Developing Single page App using Angular 2
- Handling of JSON data for Dynamic Data Display
- Code Optimization
- Implement to HTML elements, CSS properties, JAVA SCRIPT.
- Used Fluid CSS layouts, to make the page adopt smoothly as the browser
- Supported to all major browser's:-IE8+, Mozilla, Safari, Chrome ,Opera.
- Rich look and Feel HTML Mock-ups and Created Slider effects and
- Login Pop Up Message Using JavaScript and angular2.
- Solving Browser compatibility issues in all browsers

Scope of work	Developing Single Page App of E-commerce website using Angular2
